

# CENTRAL AVENUE BRIDGE REPLACEMENT

Central Avenue detour and traffic changes, and the Central Avenue bridge

## PROJECT DETAILS

On January 13, 2017, the Indianapolis Department of Public Works closed the Central Avenue bridge over Fall Creek as a safety precaution for both motorists and pedestrians. Replacement of this bridge will begin this spring, and construction will be completed by fall 2018.

Vertical pavement markers were installed on the south side of the center lane along Fall Creek Parkway between 30th Street and Central Avenue. Motorists can also turn left at Fall Creek Parkway and College Avenue. While this bridge is under construction, the College Avenue bridge will not be closed.

**PROJECT STATUS:** In Construction  
**ANTICIPATED CONSTRUCTION PERIOD:** Spring 2017  
**ESTIMATED CONSTRUCTION COSTS:** \$7 million  
**DESIGN CONSULTANT:** Butler Fairman & Seufert  
**CONSTRUCTION CONTRACTOR:** Illinois Constructors Corporation, Inc.  
**PROJECT BENEFIT:**

- New infrastructure
- Increased commuter and pedestrian safety

The Indianapolis Department of Public Works (DPW), continues to transform Indianapolis neighborhoods through the restoration of deteriorating thoroughfares, residential streets, sidewalks, bridges, as well as addressing neighborhood drainage and flooding issues. This investment continues to transform neighborhoods throughout Indianapolis.

These projects create local jobs and increase public safety for neighborhoods and residents, which supports DPW's commitment to make Indianapolis a more livable city.
